As an aside Kronfeld told me that hearings on the polygraph and related matters will be further delayed. The telephone company has requested that subpoenas be served by the Committee for the information desired concerning telephone monitoring, recording, etc., equipment in use by the Federal Government. As yet the subpoenas have not been signed by Chairman Holifield, who is in California. I told Kronfeld our report would be in the Committee's hands early in February. He said this would be ample time since other information required by the Committee will be delayed.
